PROFILE

Full Stack Developer with 2.5 years of hands-on experience building production-grade web applications using **Node.js**, **NestJS**, **React.js**, **Next.js**, **PostgreSQL**, and **MongoDB**, deployed on **AWS** and **GCP**. Built and maintained **REST APIs**, developed user-facing features, and integrated complex backend systems with cloud services. Strong focus on maintainable code, system performance, and real-world impact. Open to roles where I can apply my skills across the stack to solve practical engineering problems and contribute to product delivery from backend logic to frontend UX.

SKILLS

Frameworks & Libraries	Nest.js, Express.js, Next.js, React.js
Databases	PostgreSQL, MongoDB, TypeORM
Languages	Javascript, Typescript, Java, SQL
Cloud & DevOps	AWS (S3, EC2), GCP, Docker, CI/CD Pipeline
Others	JWT, OAuth2, RBAC, Git, GitHub, REST API

EXPERIENCE

Node.js Developer January 2024 – April 2025
Innowyze Global Solution (A part of The MetroMax Group), Bengaluru, Karnataka (Remote)

- Engineered an **AI-based sales chatbot** to provide **24/7 customer assistance**, automate lead qualification, and shorten the sales cycle through real-time interaction and improved engagement.
- Directed sprint planning and provided technical leadership to two developers, **delivering features 20% faster** and ensuring stable releases for the logistics platform in a high-pressure setting.
- Architected backend services for a last-mile delivery platform using **NestJS**, **PostgreSQL**, **WebSockets**, and **Redis**. Implemented route optimization, live vehicle tracking, and automated alert systems. Boosted delivery success rate by **25%**.

Intern – Node.js Developer July 2022 – January 2024
Innowyze Global Solution (A part of The MetroMax Group), Bengaluru, Karnataka (Remote)

- Built core **backend systems** for the **admin dashboard**, **product catalog**, and **promotions**, supporting **10K+ monthly transactions**. Added mini-games that increased session time by **35%** and repeat visits by **20%**.
- Integrated backend APIs for popular games like **Bingo Bash** and **Classic Casino**, connecting with Scopely servers to manage live sessions and rewards for millions of users. Ensured **low-latency**, **high-availability** APIs.
- Enhanced the user interface and resolved frontend issues in **Fleet Drive 360** using **React.js**, collaborating in a **Scrum team** and managing tasks via Jira to ensure stable releases.

PROJECTS

- AskKaka.in – AI Chatbot SaaS Platform** ([Live Demo](#))
Launched a SaaS platform enabling Indian SMBs to build multilingual AI chatbots (**English**, **Hindi**, **Hinglish**) trained on website content. Implemented using **Next.js**, **Supabase** (**Auth**, **PostgreSQL**, **pg_vector**), **Gemini API**, and hosted on **Vercel**.
- Roam Around – AI Travel Itinerary Planner** ([Live Demo](#))
Crafted an AI-powered travel planner that generates personalized itineraries based on user inputs. Utilized **Next.js** and **OpenAI APIs**, emphasizing fast response time and intuitive UX. Deployed on **Vercel**.
